TO: PORT CUSTOMERS

INCREASE IN PORT CHARGES 2014/15 EFFECTIVE JULY 1, 2014

The Port Hedland Port Authority (PHPA) has reviewed its pricing against its statutory obligation to earn a commercial rate of return for the State Government of Western Australia. This review has generally resulted in an increase of approximately 3% on all fees and charges in the attached schedule. This increase is broadly in line with the ABS March quarter annual CPI rate for Perth of 3.1%.

Pilotage charges have been restructured to ensure equivalent prices for all port users. This has resulted in a simplified pricing structure with one set of prices applicable to both the east and west side berths. The extended pilotage charge has been incorporated into general pilotage charges. Pilotage charges have not been increased since 1 July 2011, hence the scale of increase this year as a result of the review.

The application fee for the Maritime Security Identification Card (MSIC) has reduced by 5%. This is to align this fee between the ports of Port Hedland and Dampier in anticipation of their impending amalgamation as the Pilbara Ports Authority.

Water and electricity charges remain as a "pass through" cost to customers. The cost of these services is subject to change during the year. The port will subsequently advise of any such price increases as they are levied by Horizon Power or the Water Corporation.

Revised Port charges will take effect from 1 July 2014.

Yours faithfully

Mark Kuzminski
CHIEF FINANCIAL OFFICER
